

The ALS Association, Oregon & SW Washington Chapter

Presents

ALS and AAC:

An Update on Augmentative and Alternative
Communication Strategies for People living with ALS
(Lou Gehrig's Disease).

with

Betts Peters, MA, CCC-SLP

Assistive Technology Services Coordinator

The ALS Association, Oregon and SW Washington Chapter

Wednesday, November 18, 2009

9:00 am - 12:00 pm

Smullin Center - Asante Rogue Valley Medical Center

2825 E. Barnett Road
Medford, Oregon 97504

Covered topics will include: a brief overview of ALS and related changes in speech and communication needs; high-tech, low-tech, and no-tech communication strategies; hardware and software options; device access; and funding issues. Time will be allowed for hands-on experience with a variety of AAC devices and accessories. Although the presentation will focus on the needs of people with ALS, much of this information will be applicable to other AAC users.

This seminar is designed for speech-language pathologists. Accreditation for Professional Development credits is currently under review by the Oregon Board of Examiners for Speech-Language Pathology & Audiology.
